Get a glimpse of the inner struggle of a pacifist caught up in the middle of the American Revolution!

As his world erupts in open warfare, Robert Harris' Quaker faith guides him away from the use of violence for any purpose, even if the war could lead to the loss of his freedom to practice that faith. Finding a balancing point between this existential threat and the commands of his inner light, while struggling against the chance effects of war, Robert must also face the challenge of an implacable foe, determined to destroy him at any cost. He must rely on the quiet guidance of his conscience to keep his family safe, and lead them to freedom.

Reviewers say:

"The Light is unlike any other 'war' novel I've ever read. There is no military violence and bloodshed. That does not mean that there isn't action. However, it is not military action but rather conflict among civilians. These conflicts are both physical as well as spiritual. The history depicted in the novel is accurate and well portrayed. Hedbor's writing is superb. The flow and grace of the language is entrancing. Each sentence is meticulously crafted. Reading this book is a joy."

Journal of the American Revolution

"There is only one way to describe this book: simply phenomenal. This book opened my mind to the fact that inner turmoil can be just as heart-wrenching and action-packed as a battle. I definitely felt like I was right there with the characters, and was consciously weighing their moral dilemmas in my mind as if they were my own."
